MEMORANDUM FOR: Acting Deputy Director for Support

SUBJECT : Emergency Power for Agency Headquarters

REFERENCE : Memo dtd 26 April 66 to D/L fr ADD/S,  
same subject

1. This memorandum is for your information only and is a periodic report as requested by the reference.

2. Modifications of Switchgear for the Two 2000 KW Units.  
We have reviewed the General Electric Company's proposal for modifications to permit parallel operation of our units, with the commercial power source, without interrupting the power to the Headquarters building. We have requested an allocation of \$10,000 from the Office of Planning, Programming and Budgeting, through the Deputy Director for Support, for this work. The contract will be administered by the Real Estate and Construction Division, OL.

3. Emergency Power for the Signal Center. This office is in the process of preparing a scope of work and cost estimate for the installation of an 800 KW automatic start, gas turbine, electric set which will be located in the powerhouse. This unit will require approximately 50 seconds before it is up to full speed and on the line.
